### 1 144 Space Shuttle Paper

Hello everybody, and with that now to the model building of the Paper-Astrovan (1:48), let's go. First of all, this is a look at the kit templates, the larger one is the Original Paper kit in 1:48, and on top of it lies the version that has been reduced in size for my diorama (1:160) with the NASA Worm logo so that the van also matches the STS-6. The construction of the wheels (9) I wanted to ...

### Space Shuttle Launch Pad 39A with Challenger STS-6 (1:144)

The Hubble Space Telescope (often referred to as HST or Hubble) is a space telescope that was launched into low Earth orbit in 1990 and remains in operation. It was not the first space telescope, but it is one of the largest and most versatile, renowned both as a vital research tool and as a public relations boon for astronomy.The Hubble telescope is named after astronomer Edwin Hubble and is ...

### Hubble Space Telescope - Wikipedia

The Kepler space telescope was a space telescope launched by NASA to discover Earth-size planets orbiting other stars. Named after astronomer Johannes Kepler, the spacecraft was launched on March 7, 2009, into an Earth-trailing heliocentric orbit.The principal investigator was William J. Borucki.After nine and a half years of operation, the telescope's reaction control system fuel was depleted ...
