The production of The Lord of the Rings film series under Peter Jackson's direction was an enormous challenge, starting in 1997 and ending in 2004. Many earlier attempts had failed; most that had reached the screen were animations, and many filmmakers and producers had considered how to achieve the task and then set it aside.

The questions asked at this point (see Figure 5.16) require some secondary research. A good place to start your research is the library. Earth science books have sections on the sun, its motion, its location, and the heat from its rays. Science experiment books are also a good source of information and provide experiments to use as well.
