Anthropology In Theory Issues In

Though there are few anthropologists today who would declare themselves structuralists, structuralism was highly influential. Work of the poststructuralist Pierre Bourdieu, particularly his idea of the habitus, laid the groundwork for agency theory. Structuralism also continued the idea that there were universal structuring elements in the human mind that shaped

Current Anthropology | List of Issues

The major accomplishment of symbolic anthropology has been to turn anthropology towards issues of culture and interpretation rather than the development of grand theories. Geertz, through his references to social scientists such as Ricoeur and Wittgenstein, became the most often cited anthropologist by other disciplines (Spencer 1996:536-538).
