To calculate AP or Honors courses: When taking AP (advanced placement) or honors courses, grade points are generally weighted. For example, a half point (.50) is added for honors courses, and a whole point (1.0) is added for AP courses (A then equals 4.50 for an Honors class, or 5.00 for an Advanced Placement class).

You are required to design a simple voltage regulator circuit that provides a constant voltage of 5 V to a load from a variable supply voltage. The load current varies from 0 to 100 mA, and the source voltage varies from 8 to 10 V. You may assume that ideal Zener diodes are available. Resistors of any value may be specified.
