API 682 Fourth Edition Abstract API 682 (ISO 21049) is the leading document for mechanical seals in petrochemical, chemical, and pipeline services worldwide. It has combined the aspects of seal design, testing, standardization, and applications to provide the users and OEMs alike with a common source of information for mechanical seals.

## **682 | John Crane**

The resulting work, API 682 Fourth Edition continues the tradition as the leading standard for mechanical sealing. Recently, the American Petroleum Institute has moved to issue its standards independently of the ISO standards organization. For this reason, the next edition of API 682 will only be issued as API 682 Fourth Edition and not as ISO 21049.

Before API 682, API 610 (the pump standard) used a simple seal code to specify seals. API 682 attempted to use a more comprehensive seal code; however, that code changed with every edition of API 682. The 4th Edition code, described in Annex D, is probably the best to date and includes some concepts and codes from the historical API 610 seal code.
