### Beyond Mount Si The Best

There are many reasons – besides its proximity to Seattle – why Mount Si is the most popular hike in the state: beautiful views, wildlife (some of it not so wild), old growth forest, and a dramatic summit worthy of a more remote peak. Rising dramatically above the Snoqualmie Valley, it serves as a literal and figurative gateway to the Cascades for thousands of hikers.

Once during your move, you can mount a creature that is within 5 feet of you or dismount. Doing so costs an amount of movement equal to half your speed. For example, if your speed is 30 feet, you must spend 15 feet of movement to mount a horse. Therefore, you can't mount it if you don't have 15 feet of movement left or if your speed is 0.

Mount Etna volcano, on the Italian island of Sicily, erupted again early this morning, Thursday, February 10. According to the Italian National Institute of Geophysics and Volcanology (INGV), the eruption occurred inside the southeast crater area, causing a slight and discontinuous ash shower.. The recorded tremors came from a depth of around 3,000 metres above sea level, reaching average values.
