CRC ® -712 R-M Dose Calibrator Manual ... - Capintec, Inc.
That innovation is now refined into the superior CRC-712M. It has the same outstanding features found in several of Capintec's dose calibrators and is now combined into the CRC-712M system, increasing its functionality and flexibility. The CRC-712M dose calibrator provides the Nuclear Medicine community with a wide range of features that are frequently needed in PET, research, manufacturing and radiopharmacies.

CRC ® -712M Dose Calibrator - Scannix
The ionisation chamber used by the NMC PET Quality Control (QC) Section is the commercial re-entrant dose calibrator, model CRC-712M, manufactured by Capintec Inc (Pittsburgh, PA, USA). The activity values indicated by the instrument depend on the induced ionisation current and a conversion factor in the form of a dial setting number that converts pA to MBq.

Capintec proudly designed the industry's first multiple chamber dose calibrators That innovation is now refined into the superior CRC-712M. It has the same outstanding features found in several of Capintec's dose calibrators and now combined into the CRC-712M system, increasing its functionality and flexibility.

Capintec - Radioisotope CRC 712 Community, Manuals and ...
Capintec proudly designed the industry's first multiple chamber dose calibrator, the shields consists of 9 interlocking lead rings that surround the chamber. Uniform wall thickness (4 cm standard, or 1 1/2") also reduces radiation exposure during calibration. The lead contains 3% antimony for added strength. For use with CRC-25R, CRC-25W, CRC-712M, and CRC® Ultra.
