When a channel refuses to turn off after a board reset and insists on staying turned on at about 50% it means half the triac for that channel is cooked. If the channel stays on at 100%, the entire triac is zapped. The triac is the gizmo that switches the high voltage to your lights. Three options.

Frequently Asked Questions - Light-O-Rama

So I answer no, it'll try a few times to turn it on asking me each time "did the sound bar turn on", then after several attempts, it'll finally turn on - but that's it. Then the remote will ask "did the cable box turn on?" and I'll answer no. After a few tries, it'll finally turn on the cable box, but the TV still isn't on. So I go through the ...
