When the "one" vial shows level, the horizontal line is off by about 1.5" at 10'. The thumb knob is as far horizontal as it will turn but it needs about another click or so to get it level. I have to use a manual level on the wall to determine true level then fine-adjust the laser tripod-mounting base.

Craftsman User Manual - Sears

A rotary laser level is an ideal choice for a larger space. Place the device on a tripod or wall-mount bracket to hold it steady. The level spins rapidly and projects a bright laser guide around the entire room. When redecorating a large basement, the rotary level will ensure that each shelf sits at the right height.
