Place a reservation by selecting a shop below. Pay upon collection at the shop, rather than online. Alternatively, for multiple items you may find it easier to add to basket, then pay online and collect in as little as 2 hours, subject to availability.

Psychology books | Waterstones

In psychology, a set is a group of expectations that shape experience by making people especially sensitive to specific kinds of information. A perceptual set, also called perceptual expectancy, is a predisposition to perceive things in a certain way. Perceptual sets occur in all the different senses. They can be long term, such as a special sensitivity to hearing one's own name in a crowded ...
