George Ritzer (born October 14, 1940) is an American sociologist, professor, and author who has mainly studied globalization, metatheory, patterns of consumption, and modern/postmodern social theory. His concept of McDonaldization draws upon Max Weber's idea of rationalization through the lens of the fast food industry. He coined the term after writing *The McDonaldization of Society* (1993 ...

An economic profit is the difference between the revenue a commercial entity has received from its outputs and the opportunity costs of its inputs. [need quotation to verify] Unlike an accounting profit, an economic profit takes into account both a firm's implicit and explicit costs, whereas an accounting profit only relates to the explicit costs which appear on a firm's financial statements.
