Geriatrics, or geriatric medicine, is a specialty that focuses on health care of elderly people. It aims to promote health by preventing and treating diseases and disabilities in older adults.There is no set age at which patients may be under the care of a geriatrician, or geriatric physician, a physician who specializes in the care of elderly people.. Rather, this decision is determined by ...

Geriatrics - Wikipedia
Usually, you see a geriatrician for an initial consult, with follow-up as needed, says Mary Tinetti, M.D., chief of geriatrics at the Yale University School of Medicine. Most geriatricians work in centers and have a team-based approach; for example, besides meeting with the doctor, you'll see a social worker, hearing specialist, nutritionist ...

When Do You Need to See a Geriatric Specialist?
the hospital with little attention on the access of geriatric trauma patients to trauma centers (TCs). We sought to determine the rate of geriatric undertriage (UT) to TCs within a mature trauma system and hypothesized that there would be variation and clustering of the geriatric undertriage rate (UTR) within a mature trauma system because of the admission of geriatric trauma patient to ...
