That means you've got access to an entire library of classic literature that you can read on the computer or on a variety of mobile devices and eBook readers.

### Handbook Of Competence And Motivation

Competence motivation theory is a conceptual framework designed to explain individuals' motivation to participate, persist, and work hard in any particular achievement context. The central thesis of the theory is that individuals are attracted to participation in activities at which they feel competent or capable. The theory can be used by researchers and practitioners in ...

Achievement Motivation Definition The term achievement motivation may be defined by independently considering the words achievement and motivation. Achievement refers to competence (a condition or quality of effectiveness, ability, sufficiency, or success). Motivation refers to the energization (instigation) and direction (aim) of behavior. Thus, achievement motivation may be defined as the ...

Self-determination theory (SDT) is a macro theory of human motivation and personality that concerns people's inherent growth tendencies and innate psychological needs. It is concerned with the motivation behind choices people make without external influence and interference. SDT focuses on the degree to which human behavior is self-motivated and self-determined.

Defining Reading Motivation. Prominent theoretical models of achievement motivation focus on children's beliefs, values, and goals as the primary "drivers" of their motivation (see 9, 10). Central motivational beliefs include competence-related beliefs such as self-efficacy, or one's confidence in one's ability to accomplish different tasks (), and the sense of control and autonomy ...

competence or self-efficacy for the activity. Because of the functional and experiential differences between self-motivation and external regulation, a major focus of SDT has been to supply a more differentiated approach to motivation, by asking what kind of motivation is being exhibited at any given time.

Sequential Bilingual Acquisition. In contrast to simultaneous bilingualism which occurs within the first year of life, the sequential acquisition of a second language can occur at any age. As the dominant language of bilingual speakers is often the native language or the language used with a higher frequency, the language which is acquired later in life is often weaker.
