learn the power of kinesiology to test for yes/no answers, with your own hands.

how to use kinesiology with your fingers

The use of hand modes in Kinesiology was originally established by Alan Beardall, D.C. Based on the concept of mudras - hand positions used by Eastern Indians when meditating - Beardall found that connecting different fingers had meaning in the body that were responded to through an indicator muscle.

Kinesiology

A language system based on hands positions (like sign language or like mudras), whereby particular fingers touches specific points on other fingers while a muscle test is performed. The originator of the Hand Modes idea was Dr. Alan Beardall, DC, founder of Clinical Kinesiology and introduced it to Applied Kinesiology (AK) and Energetic Kinesiology (EK) by Dr Sheldon Deal, DC.

Hand Modes - Knowlative

The Finger Modes, the modern derivative of the Mudra, in the hands of a trained Kinesiologist, are both an assessment tool AND a healing tool. Hand modes accomplish this by uniting various electrical/nadi terminals in the fingers, that in turn activate different areas of the brain, as well as the sympathetic and parasympathetic nervous systems.

Modern Day Mudras: Finger Modes -- The Power House of ...

Working with finger modes Test each finger pad in turn. When you get IM change, scan down each side, then the palmar and dorsal surfaces of the finger. The individual mode will be on the surface that causes IM change. Work along the numbers till you find the exact mode. Think of each finger as a 'street' eg. 'struc-tural street'.

tem that he called "Clinical Kinesiology." Central to this integrative approach to natu-ral healing was the use of hand mudras. He called them hand modes. Heonce observed a patient spontaneously make a specific hand sign that altered the response of the muscle he was testing. This led him to research different hand positions and their effect on the body.
