The refurbish unit's manual is a stapled Xerox copy of the original but it's readable. I understand that 'refurbished' is a rather fuzzy concept but I've been spoiled by the 'like new', quality of refurbished items I received from Linksys or Logitech. This unit arrived in a far from 'like new'

condition.

This Magnavox doesn't have most of those nifty features, so if that's something you are specifically interested in then you may want to look elsewhere. Overall I'd say this is an excellent starter blu ray though. The Blu Rays I've watched have looked absolutely stunning, and I only have a 720p TV. Sound is noticeably better as well.
