Break through to improving results with Pearson's MyLab & Mastering. We're working with educators and institutions to improve results for students everywhere. MyLab Mastering: Browse by Discipline; Find resources for working and learning online during COVID-19. Reach every student.

MyLab & Mastering | Pearson

17 Atmospheric Science and Air Pollution Chapter Objectives This chapter will help students: Describe the composition, structure, and function of Earth's atmosphere Outline the scope of outdoor air pollution and assess potential solutions Explain stratospheric ozone depletion and identify steps taken to address it Define acidic deposition and illustrate its consequences Characterize the ...

Chapter 17 - Atmospheric Science and Air Pollution Outline

Heat moves in the atmosphere the same way it moves through the solid Earth (Plate Tectonics chapter) or another medium. What follows is a review of the way heat flows, but applied to the atmosphere. Radiation is the transfer of energy between two objects by electromagnetic waves. Heat radiates from the ground into the lower atmosphere.
