Fender Schematics

The Fender Pro Reverb, rated at about 40 watts but maintaining the classic 2x12 speaker configuration, was definitely a step closer. The Pro Reverb puts out 40 tube watts, has 2 12" and has the typical blackface era layout of two channels. The first is normal and has volume, treble, and bass controls with a bright switch like a Twin Reverb.

Great software - I bought this to use on my old MacBook Pro that was not new enough to run the latest version. Now that I have a new computer I don't have need for this software.This comes with all of the original install discs, manuals, etc. This is a LEGIT copy from Apple, not a bootlegged copy...
