A bicycle-sharing system, bike share program, public bicycle scheme, or public bike share (PBS) scheme, is a shared transport service in which bicycles are made available for shared use to individuals on a short-term basis for a price or free. Many bike share systems allow people to borrow a bike from a "dock" and return it at another dock belonging to the same system.

For example, you might want to share common functionality between multiple apps. Using Application Parts, you can share an assembly (DLL) containing controllers, views, Razor Pages, razor compilation sources, Tag Helpers, and more with multiple apps. Sharing an assembly is preferred to duplicating code in multiple projects.

Dating back to the Bible Riots of the mid-1800s, the role of religion in public schools has been one of the most hotly disputed—and most frequently misunderstood—religious freedom issues in America. Even though the U.S. Supreme Court has long made clear that the Constitution prohibits public school-sponsored prayer or religious indoctrination, violations remain rampant in many parts of the ...

One of the ways SCE is reducing wildfire risks is Public Safety Power Shutoffs. During these events, we may need to proactively shut off power temporarily as a result of elevated weather conditions — such as strong winds, low humidity, and dry vegetation — that can cause a power line to fall and spark, possibly creating a wildfire.
