Python - PyXLL

It is a Python Library developed by Eric Gazoni and Charlie Clark to read and write Excel xlsx/xlsm/xltm/xltx files without using the Excel software. It is the most widely used library for python-excel purposes. It is an open source project, being non-commercial can have pros and cons.

Python Excel - A Guide to Read/Write Excel Files in Python

Convert Python Classes to Excel Spreadsheet. You already saw how to convert an Excel spreadsheet's data into Python classes, but now let's do the opposite. Let's imagine you have a database and are using some Object-Relational Mapping (ORM) to map DB objects into Python classes. Now, you want to export those same objects into a spreadsheet.
