Qi (pronounced / tʃ iː / CHEE; from the Chinese word qi; traditional Chinese: 气) is an open interface standard that defines wireless power transfer using inductive charging over distances of up to 4 cm (1.6 inches), developed by the Wireless Power Consortium. The system uses a charging pad and a compatible device, which is placed on top of the pad, charging via resonant inductive coupling.

As expected, Google has released the first developer preview of Android 13 in February. The first Android 13 beta will arrive in April 2022, which is one month ahead of the usual May release that coincides with the Google I/O event. Notably, Google aims to reach the platform stability milestone with the third Android 13 beta build, which is set for a June release.
