Second language acquisition, or SLA, has two meanings. In a general sense it is a term to describe learning a second language. More specifically, it is the name of the theory of the process by which we acquire - or pick up - a second language. This is mainly a subconscious process which happens while we focus on communication.

### Second language acquisition (SLA) | TeachingEnglish ...

A new study is exploring how a person's native language can influence the way the brain processes auditory words in a second language. Because cues that signal the beginning and ending of words can differ from language to language, a person's native language can provide misleading information when learning to segment a second language into words. Annie Tremblay, an assistant professor of ...
