Key facts. The WHO Constitution (1946) envisages "...the highest attainable standard of health as a fundamental right of every human being." Understanding health as a human right creates a legal obligation on states to ensure access to timely, acceptable, and affordable health care of appropriate quality as well as to providing for the underlying determinants of health, such as safe and ...

Human rights and health - World Health Organization

Question: "What does the Bible say about health?" Answer: Good health is something we take for granted—until we start to lose it. When our health takes a downturn, we quickly begin to question our habits and diet. God has designed the human body so that it is a finely tuned instrument that is the most resilient on earth.
