The TriPac Evolution has an industry-leading 2000-hour maintenance interval, which saves you time and money. And because it reduces tractor engine idling, the TriPac Evolution also lowers run time and reduces maintenance on your tractor, saving you even more and adding to the resale value of the tractor.

Adding an APU Air Tower to the TriPac® air conditioning system will result in improved temperature management and increased driver comfort. Since cold air is heavier than warm air, the APU has to work very hard to push the air up above the bunk. The APU Air Tower improves air circulation reducing APU run time by up to 22%.
