The reason why Mahler's music became such a sensation in the 60s was of course due in part to Bernstein's advocacy, but basically because every important conductor since then recognized the music's greatness and caught the bug. Abbado, Mehta, Levine, Tennstedt, Chailly, Sinopoli, Rattle, the list goes on, all became Mahler specialists.

Gustav Mahler (German: ; 7 July 1860 – 18 May 1911) was an Austro-Bohemian Romantic composer, and one of the leading conductors of his generation. As a composer he acted as a bridge between the 19th-century Austro-German tradition and the modernism of the early 20th century. While in his lifetime his status as a conductor was established beyond question, his own music gained wide popularity ...

Das Lied von der Erde ("The Song of the Earth") is an orchestral song cycle for two voices and orchestra written by Gustav Mahler between 1908 and 1909. Described as a symphony when published, it comprises six songs for two singers who alternate movements. Mahler specified that the two singers should be a tenor and an alto, or else a tenor and a baritone if an alto is not available.

Mahler's Resurrection symphony is basically great, and we're about to tell you precisely why. When Gustav Mahler, the specky oddball with the huge ambitions and the knack for bluster and religious confusion, wrote his second symphony, it was clear that its popularity was going to last well beyond his lifetime.

One reason Wagner appeals to younger listeners is that he draws on imaginative worlds familiar from books, films and even video games: those of myth and fantasy. CS Lewis discovered the Ring as a child from Arthur Rackham's classic illustrations, while his friend JRR Tolkien was much more deeply influenced by Wagner than he cared to admit.
